

Nix **STUDY Abroad**

Study MBBS Abroad

ABOUT OUR FOUNDER

Dr Nikesh Ranjan, the Founder of Nix Group is an MBBS graduate by profession. He is well versed and knows the system of how middle class and underprivileged students cannot fulfil their dream of becoming doctors because of several reasons, be it high competition in the NEET, financial burden to pay the medical school fees or being cheated by educational consultancies.

Over the years, Dr Nikesh Ranjan introduced various companies under the Nix Group and presented Nix Study Abroad in 2016. A transparent and direct way to fulfil the dream of becoming a doctor, because of our direct link with local government, universities and our own representative offices across the globe. We provide end to end service, showcase the correct fee structure, give unmatched services and take total care till the student complete their education and return home.

WHO ARE WE?

We are an overseas education consultant with headquarter in Delhi and representative offices in Russia, Ukraine, Kazakhstan and other countries which we represent.

What can we do for you?

We provide end-to-end education solutions to students and deliver world-class universities suitable to your budget. We give seamless services in visa for education and travel assistance onward your first abroad journey.

But what we mainly specialise is in helping in the admission process for undergraduate and postgraduate students.

Nixtour

TASHKENT MEDICAL ACADEMY

Tashkent Medical Academy, established in 1919, stands as one of Uzbekistan's oldest and most renowned medical universities. Offering a 6-year MBBS program taught entirely in English, it attracts students from around the globe. The academy prides itself on its highly experienced and dedicated faculty, who provide top-notch education to aspiring medical professionals.

With a commitment to excellence, Tashkent Medical Academy provides state-of-the-art facilities for both research and clinical training. These modern resources enable students to gain practical skills and knowledge in a conducive learning environment. From cutting-edge laboratories to well-equipped hospitals, the academy ensures that students receive hands-on experience in their medical journey.
